Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
IMBA (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2017-18, 2018-19, 2019-20, and 2020-21. Enrollment period per student is 2.5 years, with the possibility to request re-enrollment to extend the initial period.
DBA (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2014-15, 2015-16, 2016-17, and 2017-18. Enrollment period is 6 years per student, with the possibility to request re-enrollment to extend the initial period.
PhD (all three indicators)	Using the most recently available data from graduates/students who started the program during the academic years 2013-14; 2014-15, 2015-16, and 2016-2017. Enrollment period is 7 years per student, with the possibility to request re-enrollment to extend the initial period.
